Graded Exercise

Web Engineering
Prof. D. König
C. Ribeaud

Graded Exercise Overview

Single-person activity

Bring-your-own idea or "team-staffing" or

any of https://flaviocopes.com/sample-app-ideas/

Delivery format: Grails app in github

Graded Exercise Timeline

- 23.11. Commit proposal (template)

- 26.11. Me accepting proposal (git commit)

18.12. Delivery Deadline

15.01. Grading via git commit

Single User Activity, allowed

Using code from course material

Using code from w3schools / tutorials

Using external dependencies

Discuss with others, getting help

Clear Demarcation

**External code
can be used
but must be
clearly marked**

External Code Markers

As appropriate:

- comments in code
- extra commit with comment

Include the word "EXTERNAL" and the origin

Grading Scheme

See the spreadsheet for details.

Max. 50 points

Grade: 1.0 + points/10

Cheating attempt => 1.0

Use Git Wisely

Commit early, commit often

Putting all of your solution in a single commit would be extremely suspicious
